Portuguese

I am a Full Stack developer

As a full stack developer, I'm skilled in both front-end and back-end development, with a strong foundation in computer science principles and software engineering best practices. I'm comfortable working on both client-side and server-side projects, and have a track record of delivering high-quality, reliable software. I'm a strong problem-solver and a natural collaborator. I enjoy working on diverse and challenging projects, and thrive in a fast-paced, dynamic environment.

Industry experience

- **EdTech**
 - Online conferences platform
 - LMS and ERP for edtech
- **InsurTech**
 - AVIVA renewals feature
 - CONVEX endorsement feature
- **Data delivery**
 - Wood Mackenzie Massive data process and delivery

Relevant experience
